Each of them got a CityHop travel pass for the whole trip. What was the cost for all of the passes?

- (A) \$115 (B) \$270 (C) \$320 (D) 680

(三)

Read the following descriptions of fun activities at the sports stadium. Then answer the questions based on the given information.

Kiss Cam	T-shirt Cannon
The kiss cam began in California in the 1980s. During breaks, a camera looks around the crowd and shows couples on the big screen. When people notice themselves, they often kiss. The crowd usually cheers, so the whole stadium feels more lively.	The T-shirt cannon became popular in the 1990s. It shoots free T-shirts into the stands, and fans try to catch them. Some teams also launch other small gifts to raise excitement. Because people enjoy getting something for free, this activity easily brings energy to the event.
Mexican Wave	Chanting Competitions
The wave is one of the most eye-catching stadium actions. Fans in one section stand up, raise their arms, and sit down fast. Then the next section copies the move, and the “wave” travels around the stadium. It became world famous during the 1986 World Cup in Mexico.	Chanting competitions happen when fans of rival teams sing loudly to beat each other. The songs may include funny or even rude words about the other side. This is common in UK soccer. Also, in Taiwan baseball games, cheer squads lead songs and keep the crowd excited for the whole game.

57. Which activity is known for showing people on a big screen during breaks?

- (A) Chanting Competition (B) Kiss Cam (C) T-shirt Cannon (D) Mexican Wave

58. Which of the following is true according to the descriptions?

- (A) The wave became world famous after a World Cup in England.
(B) The kiss cam mainly helps players practice teamwork.
(C) Chanting competitions are a common sight in Taiwanese baseball games.
(D) The T-shirt cannon first appeared in California in the 1980s.

(四)

If you live in Taiwan, you’re probably familiar with Kuai Kuai, the popular corn chips. That’s because bags of Kuai Kuai are everywhere in Taiwan, not just in convenience stores. The snack can be found propped up against computers, in high-tech labs, and even on top of lifesaving hospital equipment. But why?

It turns out that Kuai Kuai is the perfect good luck charm. The snack’s name means “behave,” and the green packaging indicates “go.” So, the thinking goes, simply place Kuai Kuai next to a machine, and it will “behave” and not break down. The tradition is particularly popular with the country’s engineers and tech companies, but even police stations have been known to prominently display the snack to “ward off evil.”

To make Kuai Kuai effective, you must follow some basic rules. The snack must remain unopened, and it must be replaced before its expiration date. Follow this advice, and Kuai Kuai might ensure that you get your work done without a hitch.

59. What is the purpose of the passage?

- (A) To argue that Kuai Kuai should be more popular outside of Taiwan
(B) To explain the origins of Kuai Kuai as a traditional Taiwanese snack
(C) To highlight the marketing strategies of Kuai Kuai’s manufacturer
(D) To describe how Kuai Kuai is used as a good luck charm in Taiwan

60. What does “ward off” in the second paragraph refer to?

- (A) To make people feel less worried
(B) To attract customers to buy snacks
(C) To repair broken machines in offices
(D) To stop something harmful from happening
